

UNIVERSITY ALLIANCE OF THE SILK ROAD 丝绸之路大学联盟

Notice of University Alliance of the Silk Road (UASR) Virtual Summer Courses 2022

Following the success of UASR Virtual Summer Courses 2021, UASR Secretariat along with member universities and sub-alliances, will continue the endeavor this year, and roll out the UASR Virtual Summer Courses 2022 to provide high-quality international education resources for teachers and students of University Alliance of the Silk Road (UASR). The courses are open for free.

i. Duration

From June 27 to July 10, 2022

ii. Platform

The program is technically supported by International Knowledge Centre for Engineering Sciences and Technology under the Auspices of UNESCO (IKCEST). The majority of courses will be registered and accessed through IKCEST System,

The process of participation (through IKCEST) includes following steps:

1. Register for an IKCEST account (open for registry from now on)

http://ikcest.org/my/register.htm?returnUrl=http://ikcest.org/my/training_userlist.ht m&type=srst

Please register only through this link. DO NOT register through other URLs.

- 2. Select the courses through the Verify Codes
- 3. Take the courses (June 27 to July 10, 2022)
 - 4. Finish the survey and take the exam for each course
 - 5. Get the E-certificate(applicable to courses learning exclusively on IKCEST)

iii. Teaching Faculties

Well-known experts and scholars around the world who focus on frontier and cutting-edge industry knowledge

iv. Course Information in details

丝绸之路大学联盟常设秘书处 Permanent Secretariat of University Alliance of the Silk Road

Frontiers in Medicine 2022

Verify Code: S30286

No.	Lecture	Lecturer	University
1	The future of psychotherapies. Perspectives from low- and middle-income countries	Atif Rahman	University of Liverpool
2	Drug discovery for ocular angiogenic diseases	Xiaomeng Wang	Duke-NUS Medical School
3	State-of-the-Art Animal Models of CardioVascular Disease	Jiongwei Wang	National University of Singapore
4	Studying biology using genetic perturbations	Baoxu Pang	Leiden University Medical Center
5	Comprehensive Management for Diabetes and Experience in Preventive Medicine in Japan	Yoko Iizuka	The University of Tokyo Hospital
6	Updates of SARS-CoV-2: Antiviral strategies	Mok Chee Keng	A*STAR Infectious Diseases Labs
7	Case analysis: the important role of clinical communication skills of medical practitioners in disease diagnosis and treatment	Yong Zhang	Somerville Village Clinic

Business Law: International and Comparative Perspectives

Frontiers in Materials Research 2022 Verify Code: S30594

No.	Lecture	Lecturer	University
1	Low dimension electronic materials synthesis and characterization	Yi Pan	Xian Jiaotong University
2	Stress/microstructurecontrolof3D-printednon-weldablesuperalloys	Kai Chen	Xian Jiaotong University
3	Beauty of materials' structural defects	Haijun Wu	Xian Jiaotong University
4	Antimony-Based Zintl	Umut Aydemir	Koç University, Turkey
	Thermoelectrics for Energy		

丝绸之路大学联盟常设秘书处 Permanent Secretariat of University Alliance of the Silk Road

UNIVERSITY ALLIANCE OF THE SILK ROAD 丝绸之路大学联盟

	Harvesting		
5	Thermal Spray Techniques and Their Applications	Xiaotao Luo	Xian Jiaotong University
6	Dielectric materials for electronic applications	Jing Guo	Xian Jiaotong University
7	An introduction to advanced ceramics and composites	Jiping Wang	Xian Jiaotong University
8	Advanced functional oxides for optoelectronic applications	Huajing Fang	Xian Jiaotong University
9	Two-dimensional materials for supercapacitors	Farshad Boorbor Ajdari	University of Kashan, Kashan, Iran
10	Nano-materials based sensors and its applications	Shafa Mohammad	Xian Jiaotong University

Development Frontier and technology of low carbon chemical industry Verify Code : S30699

No.	Lecture	Lecturer	University
1	Heat Exchangers and Networks of Heat Exchangers in Sustainable Energy Systems	Bengt Sunden	Lund University, Sweden
2	Energy system integration and the roadmap of Denmark to carbon neutrality	Haoshui Yu	Aalborg University, Denmark
3	MethaneAssistedCatalyticValorizationofLowCostResources	Hua Song	University of Calgary
4	Membrane Distillation: the low-carbon sustainable way to produce freshwater	Jianhua Zhang	Victoria University, Australia
5	Single-atom catalysis for energy and environmental applications.	Jiong Lv	National University of Singapore, Singapore
6	Cogeneration Targeting with Process Integration	Dominic Chuan Yee Foo	University of Nottingham Malaysia, Malaysia
7	Analyzing Impedance Spectra with the Probabilistic Distribution of Relaxation Times	Francesco Ciucci	Hong Kong University of science and technology,

丝绸之路大学联盟常设秘书处 Permanent Secretariat of University Alliance of the Silk Road

			HongKong,China
8	Degradable polymers : Synthesis, Structure Manipulation and Applications	Dezhong Zhou	Xian Jiaotong University
9	Porous Organic Polymers and Carbon Neutralization	Shangbin Jin	Xian Jiaotong University
10	Selective Electrocatalytic CO2 Conversion	Ming Ma	Xian Jiaotong University
11	Microbial electrochemical CO2 fixation	Kun Guo	Xian Jiaotong University

Basic Course of Linear Algebra

Verify Code : S30743

No.	Lecture	Lecturer	University
1	Matrices. Main Definitions And Arithmetical Operations		
2	Matrix Determinant. The Inverse Matrix.		
3	Rank Of A Matrix. The Method Of Bordering Minors.		
4	Gaussian Method For The Matrix Rank Evaluation And Calculation Of An Inverse Matrix		
5	Cramer's Rule For Systems Of Linear Equations. Linear Dependence and Linear Dependence And Linear Independence Of Vectors. Bases	Margarita I.Besova	Moscow Power Engineering Institute
6	Gaussian Elimination For Systems Of Linear Equations		
7	ConsistentAndInconsistentSystems Of Linear Equations		
8	Homogeneous And Inhomogeneous Systems Of Linear Equations		

Dynamics and control of the active human exoskeleton Verify Code : S30846

丝绸之路大学联盟常设秘书处 Permanent Secretariat of University Alliance of the Silk Road

No.	Lecture	Lecturer	University
1	The current state of development of active exoskeletons		
2	Statement of tasks and directions of research		
3	Construction and 3D modeling of an active human exoskeleton		
4	Development of a mathematical model	Delshan Deeb	Moscow Power
5	Balance control of the active human exoskeleton	Merkuriev Igor	Engineering Institute
6	Methods for optimal motion control		
7	Algorithms for optimal motion control based on system state estimation		
8	Sensory support for motion control processes.		

v. Contact information

For enquiries about courses, please feel free to contact UASR Secretariat via uasr@xjtu.edu.cn

For enquires related to IKCEST platform, please contact Mr. Du via srst@ikcest.org
